

Weekly Coal Production

DOE/EIA-0218(93-46)
Production for Week Ended:
November 13, 1993

EIA

Energy
Information
Administration

SUMMARY—As estimated by the Energy Information Administration (EIA) from data on railroad car loadings, U.S. coal production totaled 19 million short tons during the week ended November 13, 1993. This was about the same as in the previous week, and 7 percent lower than in the comparable week in 1992. Production east of the Mississippi River totaled 11 million short tons, and production west of the Mississippi River totaled 8 million short tons. Contract talks between the Bituminous Coal Operators' Association and the United Mine Workers of America continued.

East of the Miss. River Total	10,979	10,584	12,395	548,166	585,171	-6.3
West of the Miss. River Total	8,402	8,488	8,359	407,543	406,257	.3
Bituminous and Lignite Total	19,294	19,003	20,674	951,186	987,996	-3.7
U.S. Total	19,381	19,071	20,753	955,709	991,428	-3.6
Railroad Cars Loaded	125,757	123,706	133,781	6,119,880	6,340,051	-3.5

* For quantity data, the value of the number is less than 0.5 thousand short tons. For percentage calculations, the absolute value of the number is less than 0.05 percent.

a are preliminary. Total may not equal sum of components because of independent rounding. Bituminous and Lignite Total includes bituminous coal, and lignite. The States in the Appalachian Region are Alabama, Eastern Kentucky, Maryland, Ohio, Pennsylvania, Tennessee, and West Virginia. The Interior Region States are Arkansas, Illinois, Indiana, Iowa, Kansas, Western Kentucky, Louisiana, Missouri, Oklahoma, and Nebraska. The Western Region States are Alaska, Arizona, California, Colorado, Montana, New Mexico, North Dakota, Utah, Washington, and Wyoming.
